

February. This week's theme is "School Counseling: Helping Students Realize Their Potential."

Mr. Speaker, what we know is that school counselors are integral to student success. Counselors not only help students reach their academic and career goals, but they focus on assisting with social and personal development, too. Many parents also benefit from the assistance of school counselors as they encounter the challenges of raising children in today's world.

Our counselors play a vital role in the total education of children. I salute these professionals in the Commonwealth of Pennsylvania and throughout the United States for their dedication to preparing our students to achieve success and become productive members of society in this ever-changing world.

Thank you to our school counselors for all you do to help educate students nationwide. Happy National School Counseling Week.

REMEMBERING DR. ARTHUR ROSENFELD

(Mr. TONKO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TONKO. Mr. Speaker, the energy world was saddened by the recent passing of Dr. Arthur Rosenfeld on January 27. I rise today to pay tribute to his extraordinary life and countless contributions.

Known as the godfather of energy efficiency, Dr. Rosenfeld's efforts brought awareness to the tremendous benefits of efficiency. As a physicist at UC Berkeley, Dr. Rosenfeld became interested in efficiency during the 1973 oil embargo. He soon began pushing efficiency standards for appliances and buildings for California, and eventually for the entire Nation. He went on to work as an adviser at the Department of Energy and served on the California Energy Commission.

According to the American Council for an Energy-Efficient Economy, a group that Dr. Rosenfeld helped found, savings from energy efficiency gains have averted the need to build more than 300 large power plants since 1990.

The EPA has estimated that between 1992 and 2014, its ENERGY STAR program, a program built on the shoulders of Dr. Rosenfeld's work, has helped families save over \$350 billion on utility bills while reducing greenhouse gas emissions by more than 2.5 billion metric tons.

The cleanest and cheapest kilowatt-hour of electricity that one may take advantage of is the one we do not use. We salute Dr. Rosenfeld.

THE RIGHT TO TRY

(Mr. FITZPATRICK asked and was given permission to address the House for 1 minute.)

Mr. FITZPATRICK. Mr. Speaker, I rise today on behalf of the millions of

Americans who receive the devastating news of a terminal diagnosis each year. Even with the amazing work done in American medical research and development, for too many families, access to these potentially lifesaving treatments will come too late, if at all.

It is time for this body to come together with Federal regulators and industry leaders to clear the path forward to take care of those brave Americans who are fighting simply for a chance to live. A bill introduced today jointly by myself and Congressman BIGGS will offer these brave Americans a chance to extend their lives.

Mr. Speaker, the Right to Try Act would ensure that terminally ill patients, together with their physicians and pharmaceutical manufacturers, will have the right to try investigational treatments where no alternative exists. In fact, this bipartisan idea is already the law of the land in 33 States of our Nation.

For patients and their doctors, the Right to Try Act affords them an opportunity to try therapies where the benefits far outweigh the risks. Whether it is a father courageously battling ALS or a brave child living with Duchenne muscular dystrophy, all those fighting for their lives deserve a right to try. They deserve a right to live.

THE DRIVE FOR FIVE

(Ms. KUSTER of New Hampshire asked and was given permission to address the House for 1 minute.)

Ms. KUSTER of New Hampshire. Mr. Speaker, I rise today because the Drive for Five is complete. I want to join New England in congratulating our New England Patriots on their incredible victory in Super Bowl LI. Fans across the Granite State agree that Super Bowl LI will go down in history as one of the most amazing comebacks of all time, and it cements the legacy of Tom Brady and Bill Belichick as the greatest quarterback-coach duo ever.

The game was remarkable for team effort. After finding themselves down by 25 points, the Patriots did not fall victim to despair. They, instead, showed true resolve and perseverance as the offense executed drive after drive and the defense held the powerful Atlanta offense in check.

Whether it was the record 14 catches by James White, the record 466 passing yards by Tom Brady, the forced fumble by Dont'a Hightower, the mind-boggling catch by Julian Edelman, or the coaching of Bill Belichick, everyone did their part.

So let me take a moment, Mr. Speaker, to say to the New England Patriots: Thanks for doing your job.

Congrats, Pats.

CONGRATULATING THE NEW ENGLAND PATRIOTS

(Mr. CICILLINE asked and was given permission to address the House for 1 minute.)

Mr. CICILLINE. Mr. Speaker, a lot of history was made last night. I, too, want to join my New England colleagues to say congratulations to the New England Patriots on an extraordinary victory at Super Bowl LI.

A lot of history was made. This was the greatest comeback in Super Bowl history where our team was down by 25 points in the third quarter to come on to victory. It is the only team to win in Super Bowl history in overtime; and it is an incredible display of the extraordinary talent of Tom Brady, the only quarterback in history to win five Super Bowls. This establishes Tom Brady unequivocally as the greatest quarterback ever.

Also, congratulations to Bill Belichick for his extraordinary coaching, to Jonathan and Robert Kraft, and the whole Patriots organization for all that they have done.

This was a great and wonderful night and an important example and display of determination and persistence. It is really a lesson for all of us to never stop fighting and, for young people, the importance in believing in yourself.

Mr. Speaker, the victory last night by our great team, the New England Patriots, raised the spirits of our entire Nation.

Congratulations to the Pats. Thank you for a great season and thank you for a great victory last night.

OPPOSE THE UNCONSTITUTIONAL BAN

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Mr. Speaker, earlier today I joined members of my community to discuss the impact of President Trump's Muslim and refugee ban.

I wanted to read from a statement given by one of my constituents who participated in the discussion today. Her name is Nureed. She wrote:

I have always been grateful for being an American and for the sacrifice my parents made to afford me my American Dream. Yet, every day, since the Republican nominee for President was announced, I have feared for my safety and the safety of my little children.

I hold my breath every day praying that the day will not come that I need to flee my home for fear of retribution or, worse, because of my faith.

Mr. Speaker, Nureed is an American who realized the American Dream. She is not a threat to this Nation, nor are her young children a threat to this Nation.

President Trump wants to shut the door to the American Dream. He is tearing apart the fabric of this Nation before our eyes. I urge my Republican colleagues to remember Nureed's words and to oppose the President's unconstitutional ban.
